### Simpson University

August 2014-April 2017

*B.A., Business Administration, Marketing Focus*

*Redding, CA*

- 3.6 GPA
- Varsity Men's Golf Team Captain

## PROJECTS

---

### E-Comm

**React, Redux, Node, Express, MongoDB**

<https://desolate-chamber-46400.herokuapp.com/>

github.com/aaronclare3/ecommerce-react-redux

- Maintained git workflow using branches for new features with clean commit messages and regular pushes. Backend served by Node/Express and data stored in MongoDB cluster.
- E-Comm is created with mobile-first design principles using CSS Grid. React functional components are used throughout with modern hooks such as useState, useEffect, useDispatch, and useSelector
- Features include sorting filters, search as you type, and caching for enhanced UX and performance

### Issue Tracker

**React, Redux, Node, Express, MongoDB, JWT**

github.com/aaronclare3/issueTracker

- Bug tracking web app that I built and use to track my project bugs/to-do's. Features include login/registration (using JSON Web Tokens + cookies), and form validation. Modern react hooks, Express/Node and MongoDB

## ADDITIONAL SKILLS & INTERESTS

---

- **Additional Skills:** GraphQL, jQuery, excellent communicator, lifelong learner, great time management
- **Interests:** Spending time with my family, playing golf, running, fantasy football, learning new skills
